EXPERIENCE

Front end Developer

📁 📁 📁 📁 📁

05/2023 - Present

- Developed a comprehensive website about Palestine using HTML, CSS, and JavaScript, covering its history, the onset of the conflict, and ongoing developments.
- Included detailed sections on Arab support, significant leaders, popular movements, and key organizations that have emerged over time.
- Designed the site to be both informative and user-friendly, ensuring easy navigation through complex historical content.

M.&R ↗

05/2022 - 05/2023

- Designed and developed a responsive website for M.&R using HTML, CSS, JavaScript, and Bootstrap.
- Implemented a clean and modern design that improved user engagement and site navigation.
- Used Bootstrap to ensure the site was fully responsive and optimized for various devices and screen sizes.

Energym ↗

05/2021 - 05/2022

- Developed a responsive and user-friendly website for Energym using HTML, CSS, JavaScript, Bootstrap, and jQuery.
- Collaborated with stakeholders to translate design concepts into functional web pages, enhancing the brand's online presence.
- Utilized Bootstrap to create a mobile-first design, ensuring the site performed well on various devices.

EDUCATION

Educational Technology

South valley university

10/2022 - Present

- CS50: Introduction to Computer Science - Harvard university
- Web design - Front end (nti)
- Kotlin satr.com
- Java satr.com

SUMMARY

I am Mohamed Hajajy, a Front-End Developer with 3 years of experience in building and optimizing responsive, user-focused web applications. I have successfully established and contributed to multiple projects using HTML, CSS, JavaScript, and modern frameworks like React and Bootstrap. My expertise lies in creating seamless user experiences, improving website performance, and collaborating effectively with cross-functional teams. I am passionate about clean code, intuitive design, and staying updated with the latest industry trends.
